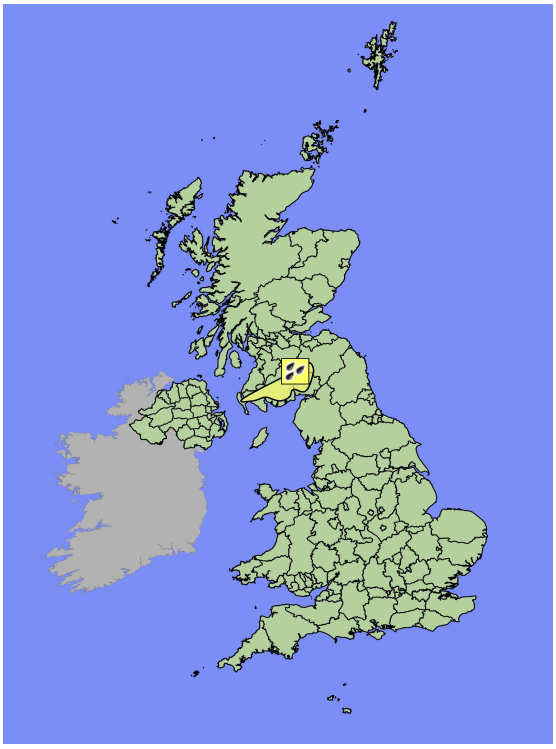
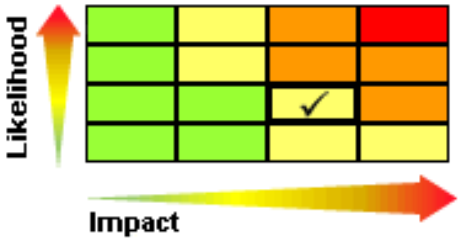
National Severe Weather Warning Service





Chief Forecasters Assessment
A slow moving frontal band of rain will become almost stationary across Southern Scotland through Friday evening and into Saturday morning.

The largest rainfall totals are expected to be over Galloway with 30 to 50mm falling quite widely and the possibility of isolated totals of 80mm falling over the high ground.

Totals across the Dumfries and western Borders will probably be around 25 to 35mm with localised totals of 50mm over the high ground.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **18:00 on Fri, 15th Jun 2012** until **15:00 on Sat, 16th Jun 2012**

Outbreaks of rain heavy at times will continue overnight and into Saturday. The heaviest rain will most likely be over Galloway and the public should be aware that this may lead to localised flooding, as well as more general difficult driving conditions.
